## Lake Fork Braid Buzz

“The Lake Fork Braid Buzz is extremely heavy duty. Most bass fisherman have gone to braided line for many top water applications including buzz baits. Buzz baits were originally designed before braided line was invented and the wire and hooks used at that time were generally lighter diameter and don’t hold up under braided line hook sets and low stretch situations. The Lake Fork Braid Buzz has super big wire and a saltwater Siwash hook. It is the only buzz bait on the market made this tough.” - *Brian Branum*

- First Buzz Bait design specifically for use with braided fishing lines.
- Super Strong, Needle Sharp, GAMAKATSU Siwash Hook.
- Unique weedless from designed for better tracking and solid hook-ups.
- Extremely durable .060 Musky-size wire for big fish and heavy cover.
- Custom clacker design for maximum “knocking” sound.
- Wire Curve provides improved tracking and allows the bait to ride lower in the water for better hook ups while still remaining weedless.
- Overall bait design allows the use of nearly any plastic as a trailer without compromising the tracking or performance of the bait.
- Oversized screw lock to hold any trailer in place

“I’m so glad Santone asked me to build BRAID BUZZ finally, a crazy strong wire and hook to match modern super lines.” - *Brian Branum*
